

A Letter from Ramzi and Abdelaziz

Dear Sir,

I would like to thank you so much for having given us the opportunity to visit your country and having settled in your Dojo, being trained under your wise supervision, that of Kobayashi sensei and that of all the other trainers who one part of you staff (in your school).

The period we spend in your school epitomizes a very important experience that affected deeply our aikido. We really profited from this experience that permitted us to acknowledge a good pedagogy that we are following in our training in Tunisia.

In fact, we started practicing the same way of training just after our arrival to Tunisia. We will maintain continuity while thinking about the future of our relationship with your school.

Thank you once again for having accepted us within your guests.

My sincere greetings to all your family the Aikido team as well.

Yours faithfully,

Ramzi Bouslimi and Abdelaziz Boukheza
